

FACILITIES AND AMENITIES

COURTESY PHONES

Globix furnishes Courtesy Phones for client use. Phones are located in the client reception areas. These phones may be used to call local numbers. To call outside of those areas, we ask that you use a calling card or reverse the charges.

DATA CENTER “HOTLINE” PHONES

In addition to courtesy phones, Globix provides internal “hotlines” right to our Global Network Operations Center (GNOC). These phones are located on columns throughout the Internet Data Centers.

BUSINESS SERVICES

Our reception areas offer a number of business services for your convenience. See the receptionist in the lobby to send a fax or make copies. We also provide you with data and modem jacks so you can stay in touch with the outside world.
